“ This may sound strange. We met Ben in 1988 when he purchased a solar system from our small company we founded in 1985 when Monegone Solar where we worked went out of business. Over the years of providing maintenance when needed for his solar system he was always very nice.

Now in 2025 our son (3rd generation) runs the company. I was helping him organize old records and mentioned how nice Mr Ivie had been over the years. I asked if he was still a customer (we still have several from the 80s and 90s). Our son said his name wasn't familiar. I decided to look up his name. You know you have be a very nice customer to be remembered 37 years later. I was sad to find this obituary. I decided to write here because if his family reads this I want them to know that he clearly made a lasting impression.

Kind regards,

“ Ben was a Gentleman. I first met him when I came to work at Greater Manassas Sanitary District in 1980. He was working at our Oakridge Sewage Station and even though I worked in Purchasing everytime he came into the office to place an order he was always a Gentleman. He was a Great Guy and my heart goes out to his family for their loss. He will be missed.

“ *Benie which is what i called him. Was surely one of a kind. He would teach the dispatcher's things on SCADA everytime he was on call it didn't matter if you wanted to know or not he was going to tell you. The good part about it was the things he showed you were used on a regular basis.*

“ *Benny was one of a kind. The warmest friendliest, craziest, and best friend a person could have... There will be laughter in heaven now that Benny has arrived.. He is no longer suffering. Mary, you and Katie(Katherine) can now heal and remember Benny for the good times. We will always be there if you two need anything.. Bernie and Debbie and the whole biker triker gang..*

“ *I used to work with Ben at Occuquan Forest. He was crazy, laughable and loveable. He will be sorely missed by everyone who knew him. I am certain that there won't be any squeaky hinges in heaven. Ben knew how to fix anything and was able to show how anything was done. I learned a lot from Ben.*
