“ *In our lifetime we will meet so many people and most leave you with nothing but a name. This guy was one of our favorites. Mr. Flanagan was part of our State Farm family for many years, he brought us joy and humor with his directness and caring heart. He made us remember the importance of family and always asked how are the kids and/or grandkids before we were allowed to discussed insurance. Today is a sad day for our agency! He gave us so much more that we gave him. You are missed more than you will ever know. Peace and Comfort to the family....*

“ *I have known Pic ,as my brother-in-law for many years...I wasn't around him a lot, since I live in Ar, but we visited when we could and they even visited our house... He had a rough exterior, but a loving heart... When our Dad passed away, 22 years ago, I was already in Pa, for my Grandma's funeral...Pic offered to go all the way to Ar to get Corky and the kids! I thought that was so thoughtful and kind of him! He will truly be missed, by us, and many others..I know he is in Heaven and is not hurting... Love you, Pic!!*

“ Pic (Curtis) came into the life of my mother, brother and I right before my teenage years. Being a teenage kid, I was a little standoff-ish with my Mom's "new boyfriend". This feeling didn't last long, as I saw how thoughtful and nice this man was to not only my mother, but also to my brother and I. They ended up getting married and having three children together. We used to do a lot of cool things together, including taking trips to West Virginia. We would see a lot of beautiful places, as he would share his love of that area with us. He took care of us and treated us like his own children, which he has done to all of our spouses, girlfriends, boyfriends and friends. He was funny, caring and loving to everyone. He had a great sense of humor, funny sayings and was the hardest working man I have ever met. I am blessed to have had this man in my life and am proud to have him as a father figure in my life, husband to my mother and father to my siblings. I know he is not in pain anymore, he knew all of his children were there with him at the end and he will be missed and never forgotten!!!

*I am going to spend this time trying to still figure out what he meant when he told me "My mom went to take a sh*t and the hogs ate her"!!!*

Love you.....Rest in Peace!
