“ Michelle,
My deepest sympathies. I was very sorry to hear of Dave's illness which was especially tragic for a young couple like you two.

Dave was a great guy to work with, and he always had innovative ideas for improving our work processes. In particular he developed the process we are currently using to convert paper reports into an editable word document. His document has been distributed throughout the country to our Regional Management Centers and from there to numerous Mapping Partners. Whenever I pass along his document I think of him and his kind and thoughtful demeanor.

May God give you strength through this time of sorrow. Take comfort in knowing that his pain is gone.

“ *Dear Family,
I know you do not know me. As I was searching for something else, I ran across your husband/son's obituary. I want to express my deep, deep sympathy for your loss. My 34-year old brother, a resident of Manassas Park, passed away from cancer in February. He was a great race fan and sometimes served on pit crews as a volunteer, so when I saw the "racing" connection, I felt led to write to you.*

I pray that you are finding peace and hope despite the storm. I know ... the loss in this life can feel almost too great to bear. However, I pray that you will cry out to Jesus Christ and allow him to carry you through the storm. A wise person said to me after my brother's passing, "I hope you can find a way to be thankful for the hole in your heart ... because if there were no hole, it would be because there had been no love." What a fresh perspective!

May you find Grace and Mercy in Him. Most sincerely, Sharon Bowers

“ David, as I knew him, was most certainly a giving person as evidenced by his willingness to help with charitable programs at Baker Engineers where I worked with him. People like him who strive to make the world better for all are rare indeed. I am glad I got the chance to know him. Curt Nelson.
