

Jacob Peter Waltner

June 6, 2001 - October 5, 2024

On Saturday morning, October 5, 2024, beloved son and brother Jacob Waltner passed away due to complications from diabetes. He was 23 years old.

Jacob was studying Engineering Technology at Northern Virginia Community College. He loved science and reason and was always looking for explanations. He was a devoted pet parent to his cat Cuddles, who was with him when he passed.

For the last three years, Jacob shared an apartment with his younger sister, which is fitting since he didn't remember a time when he didn't have a little sister. He was only 11 months old when she was born. He took his big brother duties seriously and was very protective of her. She will truly miss her "roomie".

He leaves behind his parents, Jerome and Keri Waltner of Fairfax, VA, his sister, Madeleine Waltner of Manassas, VA, and his aunt, Dianne Waltner of Wichita, KS. He was preceded in death by his paternal grandparents, Waldo and Verna Waltner, and his maternal grandparents, Larry and Jessie Bryant.

In lieu of flowers, we ask that donations be made to the Animal Welfare League of Alexandria or to the American Diabetes Association.

“ I was Jacob’s kindergarten Sunday school teacher at FMC. He was such a sweetie and I was so devastated to hear about his passing! I remember watching his beautiful friendship with his sister in church. They were so close and it was a cool thing to see (so many siblings argue constantly). I am so sorry for your loss, Madeline! I remember his artistic abilities, and his good questions for a little 6-year-old. I am so very sorry for your loss.
