“ To my larger than life Uncle Jimbo,

Thank you for all the great times and memories that we had that I will always keep close and treasure. You have a way of pulling people in close and making them feel like family. My friends that know you through the years always asked/talk about Uncle Jimbo because the impact that you have had on their lives and the relationship they had with you. When someone says your name it immediately brings a smile to peoples faces. When we would go places if they did not know Jimbo before we got there they did by the time we left. All of that is pretty special and shows the kind of person you are. Even through some rough times in life you always had a great positive attitude and moved forward. I was so proud of you for being able to do that since it would have been easy to go in a negative direction. Selfishly I just wish we all would have had a little more time with you.

Thank you for everything, I will miss and never forget my Uncle Jimbo.
