“ I had known Jack for a number of years and worked closely with him at GSA on the satellite system procurements projects there.

Jack was a very smart and brilliant man with good insights, while at the same time having a great sense of humor and always ready to help and guide. It was with great sadness and a profound sense of loss that I learned of his untimely and premature departure from our physical presence. We will always miss him and know that he is resting in peace.

“ I worked with Jack at GSA and Noblis. I knew him as a highly qualified professional as well as a good guy. I was priviledged to know and work with him.

*With sympathy and condolences,

“ It was with great sadness that we learned of Jack's passing this week. He was an important member of our SATCOM team at GSA, ready to help all of us at any time with a smile. He took great delight in our (chicken) eggs and would always be sure to tell me what exquisite dish he made with them.

We all will miss you greatly my friend. My deepest sympathies to your family.

“ I am saddened to hear of the death of "Jack" Conroy. Even way back in high school he was smart, funny, energetic (maybe too much so sometimes) and always caring. My thoughts and prayers are with Nancy and all his family.

“ I am sorry to hear of Jack's passing. I only knew Jack through our Noblis GSA team meetings but he seemed to be someone dedicated to his work and always made funny remarks during our meetings which helped to lighten the mood. My thoughts are with the Conroy family as they celebrate his life and mourn his passing.
