“ *I have known John since 1966. We became friends soon after and remained friends with him and his wife until her passing and until his passing. When I first starting working with John he came across as having this rough exterior and I would avoid him whenever possible. John would always take time and help me with understanding how Georator's products worked and for that I will always be grateful. I knew very little about electricity when it came to generation. At this time I began to realized that under that rough exterior John had a really kind heart. We played golf every week. for about 30 years. We became really good friends over those Buds. I am glad to known John.*

“ *John worked at Georator Corporation for many years with my husband, John. Our families routinely visited each other. John was so lucky to find a devoted friend like Jayne. I know it will be hard without him, but may you find comfort in knowing he is at peace. Micki has waited a long time for John to come and join her. May you both rest in peace.*
