

Kristy Ann Compton

December 8, 1979 - February 16, 2026

Kristy Ann Compton 46, February 16, 2026: Bristow Virginia.

Kristy's love of the Butterfly and what they symbolize truly describes her life. The butterfly's metamorphosis symbolizes the soul's journey from an earthly existence to a spiritual one.

It's an inspiring embodiment of Kristy's resurrection from the dark, transformation into the light...(a hard fought Hallelujah), her endurance and perseverance through it all, her hopes for the future, and her LOVE for those who helped along the way as well as those who were close to her. Kristy's favorite color is Purple: The Violet Butterfly is associated with Spirituality, Quietness, Dreams, Awakening, Royalty, and Creativity...is that not Kristy! Flutter on Dear Butterfly, flutter on.

Kristy passed away while listening to her favorite music on the "Jelly Roll" station. Kristy wished to be Cremated and placed between her Father and Mother in the family cemetery located in WV. Her placement at the cemetery and "Celebration of Life" will be arranged through her family at a later, TBD date.

Kristy is predeceased by her Father Lucien "Luke" Compton and Mother Sandra E. Woods. Kristy is survived by her Sister's Lois M.Cummings, Carol

S.Cline, and Brother William E. Compton: "Billy".

Tribute Wall

BF

“ *I didn't know Kristy well, but always felt she was a special person.
My heartfelt condolences to her family and loved ones.*
