“ Linda will be remembered fondly for the excellent support and advice she provided to her colleagues in the IMF Statistics Department. I always felt that we had a friend in Linda, who looked out for our best interests and was devoted to providing excellent IT support. It was always a pleasure working with her and I am very glad that she had time in her retirement to enjoy her family and friends.

“ Our cousin Linda was a blessing to our family. She was my Mom's little cousin and they have shared many wonderful childhood memories. I have fond memories of Linda at all of our family functions, for my entire life. We will all miss Linda terribly, but rejoice that she is now reunited with her loved ones that have gone on before her. May the Circle Be Unbroken when our family is all together again for all eternity. Our deepest condolences go out to all of Linda's family. We love you and our hearts are breaking. May your wonderful memories help you through your sorrow and grief.

“ Linda and I became friends at an early age starting with Sunday and Bible school. She and I did not attend the same school although we lived only a mile apart. Even though we didn't often see one another I always considered her a good friend. I am so sorry I cannot attend either visitation or funeral due to my work schedule. I wish I could be there and will be in my heart. My condolences to the whole family
