*It was back in the mid 60's. I got a bike for Christmas and spring the
following year as I came outside and observe Paul had every nut, bolt
and screw off the bike. Paul had that bike in 30 to 40 different pieces. I
told our mom and she told Paul "put that bike back together." Paul put
it back together but it never rode the same. The bike shook and rattled
from that day forward. A true story. Your Brother Randy*
