“ *Richard and Family, so sorry to hear about Pop. A good neighbor and Friend for many years. We will all miss him at the store dearly, a common sense guy that knows what he wants is a rare commodity in the old hardware store these days! Always enjoyed cutting up with him and when you really got him going, that infectious laugh was awesome. Actually now that I think about it, he was usually laughing at what he would say more than what I said.....engineers, they tickle themselves. Thinking about you guys, stay strong, Prayers. Your Friend, Jamie Rice*

Richard was a good friend and very talented engineer. His contributions at work were amazing and I always valued his views and friendship. He taught me much both technical and just in life lessons. He will be missed more than I can put into words. My condolences to the family and know that Richard can now rest in peace and without pain.
