“ Aunt Robin, we are still in shock. You were such a kind and fun loving soul. When you and Linda would babysit Kim and I, you were so much fun. From the water fights, dumping the throw rug on the grouchy lady downstairs to the "cruising" in your red Nova. When you saw a cute guy, you would have us lie down on the floor and throw a blanket over us to hide us. The family beach vacations were so much more memorable because of you. When you and Uncle Steve married and had Wade and Kevin, all of us girls were so excited to see you as a mom. You were a FANTASTIC mom. I knew you would be...you were a fantastic person so there was no doubt that you would be a great mother. You were a wonderful aunt to me and later on to my children. Your laugh, your caring manner and your zest for life and fun were a beacon of inspiration to me and many many others. We were privileged to have an aunt like you. ...so lucky to have you in our lives. You will always remain in the hearts of the many people you touched, the many people who loved you. Your beloved Nats, and sweet little Taffy. We love you and miss you terribly. Our family will never be the same without your gigantic heart, your sense of humor and your beautiful soul. 💙💙💙💙💙💙
