“ I was heartbroken to learn of Sara's passing. I met her while visiting my Mom at the Assisted Living apartment. In fact Sara was the first one to greet my Mom when she moved in. I remember her telling Mom "you're going to like it here". And I also remember my Mom rolling her eyes. She was such a joy to be around and very spirited which is why i think the two of them were always together. Sara would always wave at me when i was walking down the hall and when I would leave she would hold my hand and tell me to be sure and come back again tomorrow. I always looked for her when visiting. I will miss her smile and I am so sorry for your family's loss.
