“ Tommy meant so much to me , i admire him so much i don't think you'd understand. I think about him almost everyday . He's the best uncle I've ever had because he truly treated like a kid even if he isn't really my actual uncle he's the only one I'll ever consider as one . I hope that he know that my aunt Yasmin loved him More than anyone he's was her soulmate and lover . I've always admire my aunts and Tommy's relationship ever since I was young . Tommy had known me even before I was born I grew up with being part of my family . I know I'm only 15 but I think I'm old enough to say this . My aunt Yasmin has always loved Tommy for who he was and she'd even till me stories about him all the time in Spanish that's how much you know that even language never denied their love for eachother . The way they communicate with eachother was what I always admired about him. He's cost me an every weekend and he'd go on he's little date with my aunt every Saturday which was like their think . I wish he was still here to see me grow up . I don't think my family now's how much I love and admire him since I rarely to to them about it but still I wish he'd still be here so that I could talk to him about everything now that I'm older and understand things that I now know the world has felt lonely without him and I hope he know that their is still people who think about him

Love alli☐

Tommy meant so much to me ! At the ripe young age of 15 I met him at the home of the Scaffers.

Skipping forward....Tommy moved in with his father where I spent a great deal of time on the weekends. Taking the bus from Reston to Tysons corner, the orange line etc.

It was always a very difficult trip to make (I didnt have a car)

Tommy and I spent so much time together every weekend at his dad's apartment both in Silver Spring and White Oak.

We unfortunately parted ways when he met someone else.

I can tell you that Tommy was a very funny person! I loved him dearly and he always appreciated my cutting his hair (when he had it)

Tommy had a very strong personality!

I miss laying on his arm and falling asleep watching the "Johnny Carson show"

I also miss our quiete times just spending time together.

Tommy was always my best friend while we were together.

I will always miss Tommy!

New comment...why is it that none of you comment on who he was or how he died ?

There was a broken human neglected and zero people celebrating any part of his life.

He became a broken left behind man. Do something to celebrate his life. If you can't find any way to celebrate his life then YOU ARE THE PROBLEM !!!

I'm very sorry to learn of his passing. We certainly had a lot of fun together, my best friend in HS. He endured a lot growing up.
