“ *I could not bring myself to sign this earlier Bill, cause I couldn't admit that I would never be able to speak to you again nor see your smiling face. As time has passed and my faith in God reached out I realized that you are now in a better place. You see I truly believe that all things happen for a reason and everything is connected for God has a master plan for us. Sometimes we just don't know why things happen but someday we will. I will miss you dearly and will one day be with you again. Take care and say hello to everyone up there for me. Love, your "Big" little brother Gary*
